

## Driving Directions

### Google Map Position

**36.898582 – 3.441095** Directions in brief: follow the Mediterranean coast to Motril, turn inland towards Granada and follow signs to Orgiva

### Full Directions

On leaving the airport follow signs for Malaga and then signs for SEVILLA, CORDOBA, GRANADA, ALMERIA and MOTRIL (A7). After about 10kms the motorway splits into two motorways, it is important that you now keep to the left on the A7 in the direction of ALMERIA and MOTRIL and that you don't follow signs for Cordoba, Sevilla and Granada. You are on the Autovia del Meditaraneo driving east along the side of the sea. The name changes to Autovia de Sierra Nevada and you are now driving north and inland. Continue on this motorway until junction "175" (about 20kms from the coast), and turn off in the direction of ORGIVA and Las Alpujarras. The slip road brings you down the hill to the large dam and roundabout where you turn right towards ORGIVA. Keep going until you go through a tunnel, then turn left over the River Guadalfeo towards ORGIVA. Continue through ORGIVA town. Bear left at the traffic lights before the church, (signs are for A348 LANJARON & TREVELEZ). As you leave ORGIVA you will pass a small BP filling station near the bridge, then carry straight on and after 0.5km there is a larger BP filling station on the right.

### Landmarks from Orgiva to Kaliyoga

1) Continue for about 1km and you will see 'Camping Puerta de la Alpujarra' campsite on your left with red pyramid-shaped roofs. (see photo 1) 2) Carry on about 400m – there is a short section of the straight road followed by a sharp right-hand bend (see photo 2 & 3)... Slow down at the Chevron. 3) INDICATE LEFT and TURN LEFT immediately by the long green hedge and the community bin shed.

photo 2

Now choose the track that runs between the glass-fronted bus stop and the sign for Olive Mill (photo 4). Don't be tempted by the other track near the hedge, it's a dead end.

Photo 4

Having turned off the main road, drive along the unmade track slowly (it's quite bumpy). You will pass a white farm building on the right and then at the bottom of the hill is a building called "Fabricolat de Queso de las Alpujarras". Follow the road to the LEFT... past around water container on the right... Continue straight on for about 600 more meters. Keep going straight... Don't take any turnings to the right... you're nearly there... the Kaliyoga sign is on the right just after the brow of a steep uphill section.
